Summary

Infatuated with technology and invigorated by challenges, I'm orchestrating a triumphant career shift from the realm of Physical Therapy to the captivating universe of Full Stack Software Development.

A virtuoso of the digital domain, I wield a profound grasp of programming logic while harmonizing with the symphony of HTML, CSS, and the artistic finesse of Tailwind.

As I waltz through the realms of learning React.js, Angular, Typescript, Node.js, and Nest.js, my voyage becomes an eloquent dance of innovation.

The canvas of code is my palette, and I'm creating masterpieces with Prisma, orchestrating feats with Java, and building sturdy foundations with PostgreSQL and MySQL.

My language fluency extends beyond code, encompassing advanced English and French skills, allowing me to craft not just code, but stories.

Eager to carve my path as a Full Stack Developer, I invite you to join me on this symphonic journey.

Experience

Webdeveloper and Physiotherapist

Accountable for the entire web development domain of the clinic, primarily utilizing React and Tailwind.

I also carry the role of a physiotherapist, overseeing the integrative physiotherapy department.

My scope of work includes Microphysiotherapy, Biological Decoding, Radiesthesia, Psych-K, and Neuro-Muscular Equilibrium

Core Competencies

Team Leadership
Problem Solving
Collaborative Work
Attention to Detail
Leadership
Proactivity
Self-Motivation
Time Management
Communication Skills
Relational Databases
HTML/CSS
Tailwind
React.js
Angular
Node.js
JavaScript
Nest.js
Prisma
Programming Languages
Stress Management

Educational Background

Software Development at Cubos Academy 08/2022 – 04/2023

An intensive course encompassing front-end and back-end classes, programming logic, and soft skills. Taught by expert instructors with extensive experience in projects developed by Cubos Tecnologia - a company that has been delivering highly technological solutions to meet client needs for 9 years.

- Front-end Development using HTML, CSS, and the React Js library.
- Back-end Development using Javascript. API Rest Development.
- Hands-on experience in database design using PostgreSQL.
- Proficient use of GitHub.

Total Course Duration: 870 hours

Bachelor in Physiotherapy at Faculdades Integradas Pitágoras 06/2002 - 07/2007

Bachelors's in Physical Therapy, graduated with the highest scores in the class.

LANGUAGES

- Portuguese Native speaker
- English C1
- French..... C1
