PROFESSIONAL SUMMARY

Full Stack Developer with strong experience in building scalable web applications using **React.js, Next.js, Node.js, NestJS and Go**. Skilled in **system architecture, performance optimization and digital transformation**, with a proven track record of improving operational efficiency and reducing infrastructure costs.
Experienced in solving complex production issues, optimizing database performance and maintaining high-availability systems. Strong collaboration skills in agile environments and experience working with international teams.

TECHNICAL SKILLS

Languages & Frameworks
JavaScript (ES6+), TypeScript, Node.js, NestJS, Go, React.js, Next.js, Angular, Java (Spring Boot)

Databases
PostgreSQL, MySQL, MongoDB, Firebase, Redis

Infrastructure & Tools
Docker, Git, GitHub, CI/CD, REST APIs, GraphQL, WebSockets

Methodologies
Scrum, Kanban, Agile Development, Software Quality

PROFESSIONAL EXPERIENCE

Full Stack Developer
Mobilemed Medical Solutions
September 2025 – Present

- Support and maintenance of critical **teleradiology systems** ensuring high availability.
- Investigation and resolution of **complex production bugs** using Angular, Node.js and NestJS.
- Performance optimization of **MySQL and MongoDB databases**.
- Refactoring and modernization of legacy code to reduce technical debt.
- Monitoring system stability and implementing performance improvements.

Full Stack Developer
Biointegral Saúde
August 2010 – September 2025

- Technical leadership in the development of **financial management and patient workflow systems**.
- Development of a **high-performance e-commerce platform** from scratch.
- Implementation of automation processes that reduced operational costs by **15%**.
- Integration between front-end and back-end services using modern frameworks.
- Collaboration with global teams to optimize deployment and infrastructure processes.

Technologies used:
React.js, Next.js, TailwindCSS, Node.js, Go, PostgreSQL.

TECHNICAL SKILLS

Systems Development Technician
ETEC Lauro Gomes
2024 – Expected graduation: August 2025

Software Development Program
Cubos Academy
Completed in April 2023

BOOTCAMP

Santander Bootcamp – DIO (2023)
Intensive full stack training program focused on modern development practices.

Front-end
Development of dynamic web applications with Angular.

Back-end
Creation of APIs and services using Java.

Database
Data modeling and query optimization.

Agile methodologies
Scrum and Kanban practices.
